

October 14, 2020

Dear Residents and Family,

I was notified October 9 that a staff person in the Brewster Health Center tested positive for COVID-19. Testing for residents and staff with contact with this person was ordered by the Kansas Department of Health and Environment. The additional testing identified two additional staff and four residents positive for the virus.

The residents have been transferred to the COVID neighborhood to be cared for by our dedicated COVID caregivers. We will perform another round of testing next week to confirm the virus has been contained to these individuals.

Please note how this impacts you based on where you live on campus:

- **Brewster Health Center** will continue in the Red Phase.
- **Assisted Living** will remain in the Yellow Phase.
- **Independent Living** is not impacted by these results.

I will provide further information as it is available. Thank you.

Joe Ewert  
President and CEO
