

October 16, 2020

Dear Residents and Family,

Results from the second round of testing returned this afternoon Friday, October 16, 2020. An additional 2 residents from the Brewster Health Center were identified as positive and are currently being cared for in our COVID neighborhood. Since the start of this testing, an additional 8 staff persons have been identified with COVID-19. We have identified more than one community source for this outbreak. Shawnee County is currently rating in the “High” category for its community transmission and severity index scorecard.

All Brewster Health Center staff and residents will be retested again Monday, October 19.

- **Brewster Health Center** operations will continue in the Red Phase.
- **Assisted Living** will remain in the Yellow Phase.
- **Independent Living** is not impacted by these results.

I will provide further information as it is available. Thank you.

Joe Ewert  
President and CEO
