

November 6, 2021

Dear Residents and Family,

We have identified three **Brewster Health Center** residents with active cases of COVID-19. We have not identified any staff positives during this round of testing. The three residents are fully vaccinated.

Until further notice, visitation in the Health Center is limited to essential visitors only. ***There are no new interventions or restrictions for Assisted Living or Independent Living at this time.***

The residents who tested positive have moved to our special COVID-19 neighborhood for personal care and infection control purposes.

Testing of residents and staff members will continue. I will share more information as it is available. Thank you.

Joe Ewert
