

NATIONAL PHYSICAL THERAPY MONTH

If you have any questions or think you would benefit from physical, occupational or speech therapy services, please feel free to contact **Brooke Kelly, Director of Therapy** at 785-274-3338

Brewster Place is unique in many ways, including the fact that we have our own in-house therapy team and the Beck Rehab Center. Brewster's therapists provide state-of-the-art in-patient and out-patient services. In the April and May issues of the Brewster News we highlighted our occupational and speech therapists. This month we highlight our physical therapy team members so you can get to know them better. On the following pages you can read more about each team member.

What Is Physical Therapy?

Physical therapy is a service provided by a Physical Therapist (PT) and/or a Physical Therapy Assistant (PTA) to evaluate the medical treatment used to restore functional movements, such as standing, walking, and moving different body parts.

How Can Physical Therapy Help you?

Physical therapy can be an effective treatment for medical conditions or injuries resulting in pain, movement dysfunction, or limited mobility. The aim of physical therapy is to relieve pain, help you move better, strengthen weakened muscles, and to show individuals what they can do themselves to improve their own health.

Benefits of Physical Therapy

Physical therapy can provide a multitude of benefits including pain management with education on techniques to better help yourself and possibly reduce the need for some medications, avoidance of surgery if a strengthening program is adequate or a reduction in recovery time with having completed a physical therapy program prior to a surgery that is needed, injury recovery or prevention, recovery from a stroke, fall prevention, and management of age related medical issues.

Completing a dedicated program with physical therapy can help you with maintaining your independence, maintaining strength, and managing your pain.

MISSION

Brewster Place is a retirement community providing all of its residents opportunities for an optimal quality of life.

The Brewster Health Center is accredited by The Joint Commission.

MEET OUR PHYSICAL THERAPY TEAM

My name is **Teresa Kirby** and I am a Physical Therapist. I have been happily employed by Brewster for the

last two and a half years and truly enjoy every day I get to come to work. Before coming the Brewster Place, I worked in an outpatient

clinic in Osage City for five years and we still live out in the country in Osage county. I went to Emporia State for my undergraduate degree, did a few more years of graduate school, decided to get a Master of Public Health degree, then went back to school and earned a Doctor of Physical Therapy degree after another three years!

I love working with elders to learn about their history and stories that make them who they are. Sometimes I don't remember an individual's name, but I can remember what their children do or how long they have been married to their spouse! As a physical therapist, getting to see someone return to activities they haven't been able to participate in because of pain or decreased mobility is a reason I enjoy my job so much.

Outside of work I have two amazing children, Nettie age 6 six, and Reid age three, and a supportive spouse, Eric. We enjoy spending as much time outdoors as possible, on the lake, kayaking, playing sports, or camping. I recently picked up golfing again (well attempting to golf) with my husband and we try to play once a week. The kids keep us busy, and thankfully I have such a great work family at Brewster who help me with my work-life balance.

My name is **Katie Hallacy** and I have been a Physical Therapist for nine years. I have worked in various settings including hospital, home

health, and rehab. My time at Brewster Place started in May 2022. I enjoy working with our residents because I have always wanted to make a difference for others. I believe in the mind-body connection and utilize this to try to achieve posi-

tive outcomes. My biggest therapy passion is working with people with neurological conditions such as stroke, brain injury, and Parkinson's disease. When I am not working, I am typically reading, watching movies, playing with my son, or exploring coffee shops. In addition, I have two dogs and enjoy yoga, kayaking, and thrifting.

My name is **Joshua Glotzbach** and I am a Physical Therapist Assistant at Brewster. I mainly

see outpatients and home health clients on and off campus. I have been with the Brewster team for a little over a year. I have an amazing family with my wife Jennifer and two daughters Alison (age 18) and Mylah (age two). Alison

just accepted a full-ride scholarship to Washburn University for a degree in psychology with art therapy. Mylah knows almost the entire alphabet, loves coloring and tries to eat ice cream right before bedtime. We enjoy playing with our two dogs Sophia and Cat. Yes, you read that correctly, my dog's name is Cat. We enjoy going on long walks in the evenings as well as visiting the animals at the zoo. I do not really feel like I am at work while I am here, because I love spending time with my elders. I truly enjoy each interaction I have with the people I encounter. My favorite part of working in therapy is watching an individual succeed and be able to get back to the things they love.

MEET OUR PHYSICAL THERAPY TEAM

My name is **Bailey Mushock** and I'm a Physical Therapy Assistant at Brewster Place! I've worked here for 12 years this October. One of my favorite things about working with our elders is their stories about life experiences and unlocking their capabilities that they didn't know they still had.

I am a little bit of a **Wild Card**, and if you've seen me around campus, you probably know what I'm talking about. You'll typically hear me coming before I arrive. Not only am I a PTA, I coach U12 boys soccer, run half marathons (I told you, Wild Card), play volleyball year-round, garden, play video games, and dabble in the confectionary arts and cooking.

In the past 12 years, I have advanced my skills while learning LSVT Big, a Parkinson's specific method of treatment. And with my recent completion of ADED's Driving Rehabilitation Professional Program, the Older Drivers Specialty Badge, and at the end of September, I will be earning my Inclusive Communication Badge, I will be better able to serve clients with language or communication barriers while driving.

My family is extremely important to me as are my friends. You can often find us out camping, hiking, or cheering as loud as humanly possible at KU, Chiefs, or volleyball games. I'm happy I found Brewster Place when I did, and I'm happy to continue to bring a higher standard of therapy to our elders and patients from the community.

I am **Heather Holthaus**, and am a Certified Physical Therapist Assistant. I have been working at Brewster Place since 2014. I love working with the elders and have learned so much from them. The elders are truly the reason I come to work each day. They become like a part of your own family. They are so thoughtful and kind. I love sharing my life and experiences with them, and they love to hear about me and my kids.

When not at Brewster, I enjoy staying active by running and enjoy spending time with my family. We attend sporting events for our children and are avid supporters of the KSU Wildcats football team. I have a 16-year-old son Parker and a daughter Sydney who is in her second year at Fort Hays State University. I like spending time with my husband of 24 years, Matt, who is a home builder, doing mostly new home construction. We also have five dogs and live on 16 acres in Wabaunsee county. I love any kind of dark chocolate, the darker the better. Overall, I feel very blessed to be at Brewster Place where residents and staff are treated very well. My coworkers are awesome, and we work so well together. The therapy department at Brewster Place is the best place to be.

*Tho' much is taken, much abides; and tho' We are not now that strength which in old days
Moved earth and heaven; that which we are, we are; One equal temper of heroic hearts,
Made weak by time and fate, but strong in will To strive, to seek, to find, and not to yield.*

-Alfred Tennyson

MEET OUR PHYSICAL THERAPY TEAM

My name is **Nicole Atteberry** and I am a Physical Therapy Assistant. I graduated

from Washburn University and got my PTA license in 2015. I started working at Brewster Place part-time in January 2016, and then was lucky enough to become full

-time in April 2021.

I have worked in several different settings over the years, including a hospital, inpatient rehabs, and a privately owned outpatient clinic in town. I knew I wanted to work in healthcare as soon as the discussion of picking a major started but wasn't sure what would be the best fit. Nursing was out because needles make me nauseous. After doing several hours of shadowing various healthcare professionals, I finally chose PT because I liked how active I could be during the day and enjoyed getting to know and work with so many people. It's also not a bad thing to get to wear really comfy clothes every day!

At Brewster Place I mainly work with those in our inpatient rehab area. It is incredibly rewarding to be able to collaborate with our elders and the rehab team to help reach goals and get them back to their prior level. I am thankful to work with such a great team of therapists and nurses, it

makes me look forward to coming to work every day.

When I'm not at work, I try to stay busy with a handful of hobbies. I've interested in plants in the last year so every flat surface in my house now has a little house plant on it. I'm also slowly building a plant collection in our therapy gym in BHC. I started a garden this year, trialing tomatoes and sweet potatoes and it's been going pretty well. My husband is supportive and helps me try to keep everything alive.

We have two dogs, a Chiweenie named Moby and a St. Bernard Mix named Bofur (Lord of the Rings fans may recognize that name). They are easier to keep alive despite constantly getting into things they shouldn't. We like to take them on little hikes in various areas in town so they can sniff all the things. Moby is my shadow whenever I'm home, especially when I'm in the kitchen, where he stays on alert, just in case I happen to drop anything. I love to stay busy in the kitchen. My husband does most of our cooking (I know, I'm quite lucky), but I'm in charge of baking. I enjoy testing my skills and have gotten pretty good at various breads and cookies, but I can't make a decent pie crust no matter how hard I try. I enjoy reading and I'm about to finish my 50th book for the year! Send me all your book recommendations! ■

BY CHAPLAIN JULIE FREEMAN

Join us for a **Pet Blessing** in honor of Saint Francis of Assisi. Our pets hold special places in our lives as they provide companionship, love and comfort.

Blessing of the Animals
Wednesday, October 4

Did you also know that pets can help reduce stress? Studies have shown that people with pets have healthier stress responses including lower heart rate and blood pressure, lower reactivity to stressors and faster recovery. Research has even shown that adults that have owned dogs or cats in the past were less likely to become frail over a two-year period than people who had never owned pets. Let's show our pets how much we love them on this special day. Please bring your pet on a leash or in a carrier. You may also bring a pet picture for blessing. ■
